Response to the request for reconsideration dated 7-15-03

Applicant's arguments filed 7-29-03 have been fully considered but they are not persuasive. In response to applicant request for reconsideration, as to the applicability of Libia in the rejection of claims 12-17 of the instant application the examiner responds as follows.

Libia discloses a device and the teaching/method for targeting area of a human's neck in the art of massaging therapy. The applicant believes that the discloser of Libia meets the claim language of " providing a device to contact the neck in the vicinity of the target zone applying pressure, to cause nerve stimulation.

The applicant does not claim the specific frequency of vibrational rates of 60-80 beat per minute.

As to applicant remarks directed to claims 12 and 16. The examiner considers the applicant's disclosure of the sides of a users neck and his pictorial disclosure in fig 5 of the multiple location along the neck as an indication that anywhere from the jaw bone of the neck to the shoulder blade of the neck, would be the area on which the applicant would/ could apply pressure. (Whatever results occurred would be inherent).

For the above reasons it is believed that the office action of April 7, 2003 is proper and the rejection of the claims remain the same.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3725

Claims 12-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Libin.

Claims 12-17 are rejected for the same reasons as set forth in the rejection of the same in the office action of April 7, 2003.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
